A large, empty rectangular box with a thin black border, intended for the inventor to provide a rough sketch or drawings of their invention. The box occupies most of the page below the instructions.

**PATENT SEARCH REQUEST**

This service includes a professional assessment and preliminary search of existing patent references at the U.S. Patent & Trademark Office. Wood & Eisenberg, PLLC will perform the following services as part of our patent search and evaluation:

- A preliminary search of U.S. patent references on record at the Patent Office using the Examiner's Automated Search Tool (EAST).
- Consultation with a Patent Examiner, if necessary, concerning the field of search.
- A search report prepared by a registered patent attorney.
- Electronic copies of relevant patent documents found in our search.
- Our search is completed in ten business days and mailed out within 15 business days.
- A follow-up consultation with a registered patent attorney.

Please check off the services requested.

<input type="checkbox"/> <b>U.S. Patent Search Report and Copies of Relevant U.S. Patent References</b> (mailed out in 10 to 15 business days) <sup>1</sup>	<b>\$450</b>
<input type="checkbox"/> <b>Combined U.S. and Foreign Patent Search Report and Copies of Relevant</b> U.S., Japanese and European Patent References (mailed out in 10 to 15 business days) <sup>1</sup>	<b>\$600*</b>
<b>TOTAL DUE:</b>	<b>\$</b>

\*Quoted prices expire thirty days after e-mailing of this form. Be advised that the foreign patent search, if ordered, is limited to patent publications printed in English and found on the U.S. Patent Office foreign patent databases, which only cover European and Japanese patents).

<sup>1</sup>For chemical and biotech patent searches add \$350.

\*Also, please be advised that the search quote **expressly does not cover** searches of the Internet, or business databases, or any kind of business survey. For example, Wood & Eisenberg, PLLC does **not** offer Google searches of the World Wide Web (WWW) for references or potential references that might affect the patentability of your invention. The lack of a patent-like classification system and the dynamic nature of the Internet and WWW makes searches of the WWW difficult and problematic. However, you should be aware that any prior art that exists and is in the public domain anywhere in the world, including the WWW, can constitute prior art and could impact on the patentability of your invention and if known by the inventor should be made available to the Patent Office/Examiner.

\*Please note that this patent search is designed to help you make an informed decision about whether to file a patent application. However, this search is **not** an “infringement opinion” or “freedom to operate” opinion. Those opinions require a detailed analysis and comparison of the claims of any related patents to determine whether your products infringe on those claims. Hence, you should not rely on this search report for determining whether you are legally authorized to make, use or sell your product in the market. If you require a formal “infringement opinion” or “freedom to operate” opinion, please contact our office and we would be happy to quote you a price for preparing such an opinion.
