**TRADEMARK SEARCH REQUEST**

Before filing a trademark application, it is recommended that you perform a comprehensive trademark search of federal, state, and common law marks. This is done to avoid infringing an existing mark and to determine whether your mark is available for registration. Once the search is complete, we will send you a Search Report with our results and recommendations.

Our comprehensive trademark search service includes:

- Federal Search – search of federally registered trademarks and pending applications using X-Search system at the U.S. Trademark Office.
- State Search – search of state registered trademarks (includes all 50 states and Puerto Rico).
- Common Law Search – search of marks that are in use, but not registered with the State or Federal Government. Includes domain name search, business name search and brand name directory search.
- A Search Report discussing the results of our search and including copies of relevant trademarks found during our search.
- A follow-up legal consultation at no extra charge.
