

LEGAL SERVICES FOR INTERNATIONAL INVENTORS AND COMPANIES

The U.S. offers great opportunities for Non-U.S. Inventors and Companies with regard to commercialization, development and marketing your new innovative products. The U.S. is one of the largest markets in the world with great profit potential. A U.S. Patent can help you secure market share in the U.S. by stopping competitors from copying your unique products. Filing your patent applications in the U.S. can also be quite easy and inexpensive.

If you are interested in filing your patent application in the United States we would be happy to assist you. We are an Intellectual Property Law Firm located outside of Washington, D.C. near the United States Patent and Trademark Office. We offer the following services to our non-U.S. clients:

- National Phase Patent Filings in the U.S. from a PCT Application;
- Direct U.S. Patent Filing claiming priority to a Provisional Application;
- Direct U.S. Provisional Patent Application Filings;
- U.S. Trademark Filing claiming priority to a non-U.S. Trademark Application;
- Face-to-face meetings with the U.S. Patent Examiner assigned to your application;
- Trademark Applications under the Madrid Protocol;
- Patent and Trademark Searches;
- Legal Opinions regarding patentability, infringement, and right-to-use.
- Special pricing for repeat clients;
- Free consultations to discuss your needs and the status of your U.S. Applications.

About the Firm

Wood & Eisenberg, PLLC provides comprehensive intellectual property law services to high technology, chemical and biotechnology clients of national and international prominence. We are conveniently located outside of Washington, D.C. near the United States Patent and Trademark Office. Wood & Eisenberg is committed to providing excellent, cost-effective and practical legal services and solutions that focus on intellectual property protection and support. We believe that technology will continue to drive our national and global economies, and look forward to working with our clients to protect the products and services that will help build great companies. We differentiate ourselves by having greater depth in our understanding of our clients' technologies, and the capability to meet with Patent Examiners in person to help get your patent application allowed more quickly.
